

## Improve Your Horse's Overall Well-Being while having Peace of Mind by Becoming a Member Today.

### Membership Services:

Pendergraft and Associates offers the following memberships to veterinarians and clients that are interested in receiving sound management, nutritional and behavioral advice for the horses they care for from Board Certified equine specialist Dr. Jeff Pendergraft. Our member pricing program has been developed for the most effective outcomes for our clients. All packages expire at the end of each calendar month or year. Memberships started mid-month or mid-year are prorated accordingly. Payments are due at the beginning of each membership period. Limited memberships will be offered to ensure that Pendergraft and Associates provides the highest quality of service for their clients.

Custom memberships can be developed to meet your personal needs and goals for your horse(s) and horse operation(s). These custom programs may also include areas such as reproduction management, equine behavior management and training, on farm short course(s), individual short course(s), event planning, facility development and more.

- Discounted pricing for on farm staff training short courses.

### **\*Equine Lecture Series**

The goal of Pendergraft and Associates is to establish educational programs which serve the needs of the equine industry in México and promote the health and welfare of the horse. Pendergraft and Associates serves as a liaison between the University community, the horse industry, horse owners, and equine event coordinators. The Equine Lecture Series are intended for animal professionals, equine enthusiasts, and members of the public who want to learn more about horse care and guardianship.

### **\*Equine Short Courses**

If you do not want to commit to a full course and going back to college, why not consider a specialist short course? These courses are designed to cover a topic in great depth, so are ideal for those wishing to specialize in a specific area. The short courses are custom designed for on farm or public settings and are geared to enhance your career, try something new or explore a personal interest.

### **\*Hourly Rate:**

For hourly-based projects, Pendergraft and Associates will give you an hourly billing rate and such billings will take into account the time expended, the complexity of the matter, the resources required, the results obtained, and the time limitations imposed on us. We want to provide services to you in the most cost-effective way, but it is often the case that unplanned, additional time will be needed to react to the uncontrollable actions of others. For the first billable activity for a particular matter each day, we charge a minimum 15-minute charge even if the time spent was less than 15 minutes. This common practice accounts for the fact that there usually are additional tasks required to begin or end the issue. Thereafter on that day, Pendergraft and Associates charges by each minute with no minimum charge. By doing this, we expect clients will realize substantial savings over consultants which charge 15 minute minimums for each and every activity for each issue.
